# KITCHEN QUARTZ SINKS

Business to Business. Since 1985

# EVERYDAY WITH YOU

Meet our modern and functional solutions for your kitchen.

Among the most important advantages of granite conglomerate kitchen sinks are:

- wide range of applications and kitchen arrangements
- resistance to UV rays and temperature changes
- resistance to chemicals and staining products
- resistance to impact and scratches
- indifference to odours
- simple installation
- easy cleaning
- antimicrobial properties
- high aesthetics

# WELCOME TO CENTRUM COMPANY

Renowned producer of granite kitchen sinks

Our mission is to consolidate our market position in designing, manufacturing and delivering goods from plastics and to become a preferred supplier. We want to achieve this goal by ensuring that our customers receive reliable, high quality goods and by basing our production on experience, continuous innovations and cooperation of exceptional value.

- internal production of models and forms
- fully automated raw material proportioning from producer's/collective containers
- goods identification thanks to RFID system
- detailed quality control
- 16 production lines
- 20 000 m<sup>2</sup> of production floor area
- approximately 8 000 m<sup>2</sup> of warehouse space
- over 30 years of business experience

We are changing for you. We want to meet your requirements by embracing new technological solutions and bringing new production lines to life.

# B2B PRODUCT DESIGN CENTER

A wide range of possibilities to configure the trade offer

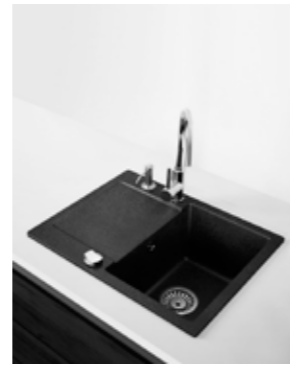

The Centrum company has been dealing with kitchen sink production for many years. Our commitment to work, care for customer expectations, full professionalism and many years of experience are the factors which allow us to offer the products which are the response to the need of having practical and effective kitchen equipment.

- a wide range of models and forms to choose
- universal and elegant palette of standard colours
- convenient and reliable cooperation
- 2-year warranty

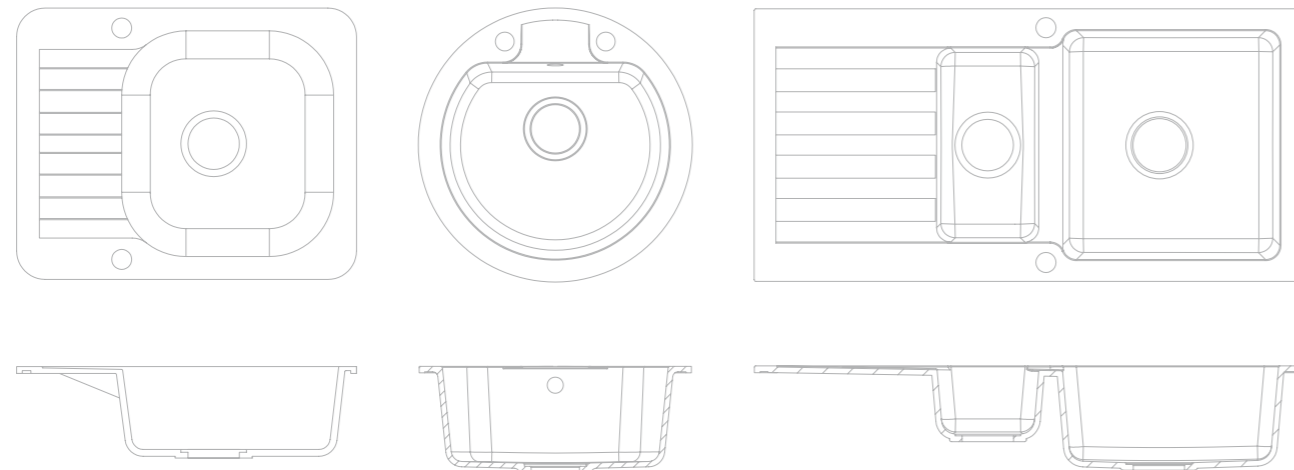

# A WIDE RANGE OF MODELS

## Always in style

Our kitchen sinks are created with great care for the tiniest details. We care not only for the selection of the best materials but also for interesting design and colours. In our current offer you will find one- and two compartment sinks with or without a drainboard as well as undercounter models.

A multitude of models provides flexibility in designing, for instance in two-sided sinks the drainboards can be mounted on the right or on the left.

Variety of models in 8 colours enables to create interesting and highly diversified trade offer. Available products are made of high quality materials and meet the demands of European quality standards. All models are under 2-year warranty.

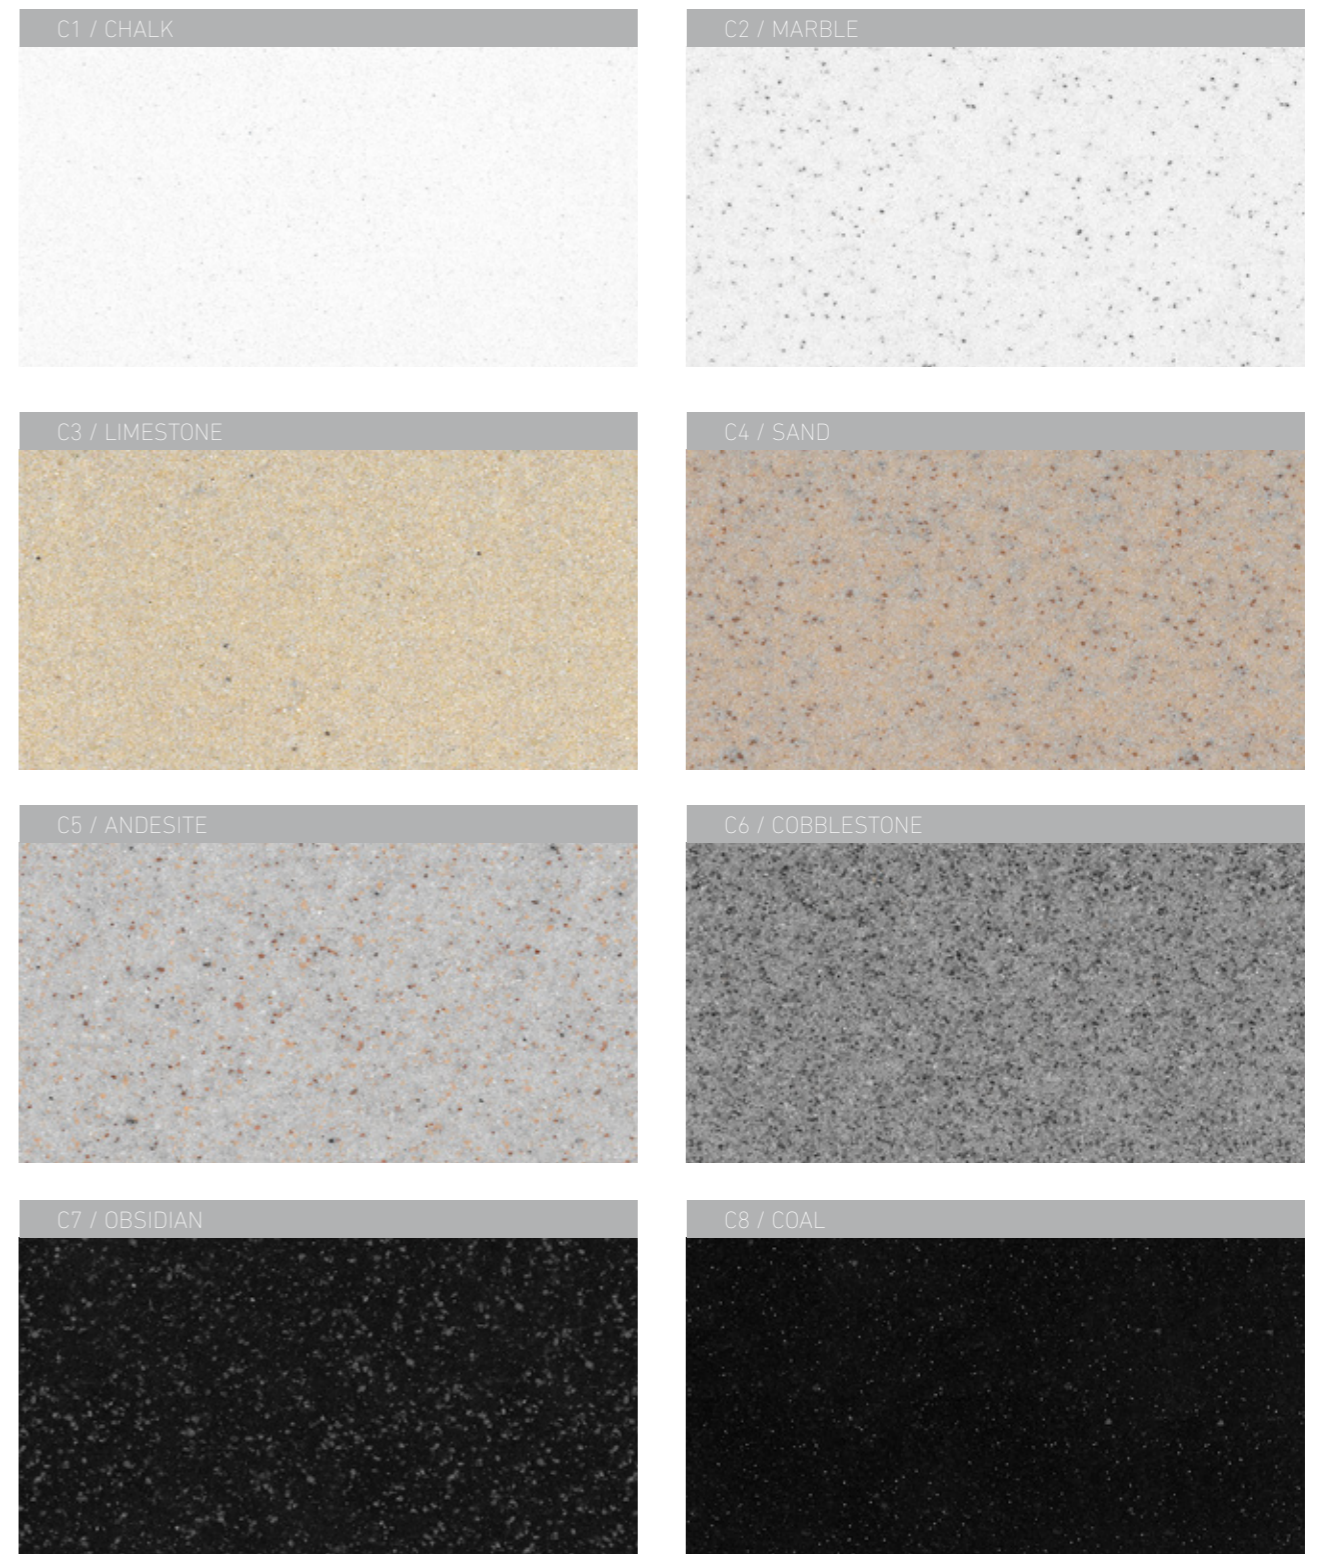

Thanks to small dimensions, undercounter sinks are ideal for smaller kitchens and kitchenettes without taking too much space. Thanks to the use of high quality materials our sinks stand out from other granite sinks available on the market.

# UNIVERSAL COLOUR PALETTE

## Timeless colours

We offer kitchen sinks in very light colours, starting with shades of cream, beige, grey and finishing with deep graphite and black. Our proposals perfectly match different styles of interiors. They fit beautifully into classic spaces and blend in perfectly with modern ones.

# SAFE USE EVERY DAY

Effective antibacterial protection is the safety of your kitchen every day.

## REALLY SAFE KITCHEN IN YOUR HOME

### NANO SILVER TECHNOLOGY - innovative protective power of sterile molecules

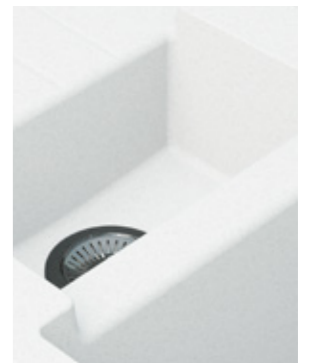

We recommend choosing the extra NANO SILVER TECHNOLOGY antimicrobial coating which fights bacteria and prevents the growth of bacteria and fungi on the sink surface. During the production, the mixture of mineral fillers is enriched with colloidal solution of silver. Nanoparticles of this metal are present on the whole sink surface and always activate during using. Colloidal silver (pure metallic silver suspended in water) is non-toxic, colourless and odourless.

The certified nano silver coating never loses its properties and cannot be wiped during use.

Innovative and specialized products for your kitchen – kitchen sinks with new properties – allow us to direct the offer to clients with full awareness of the need of microbiological protection.

The use of antimicrobial coating is a guarantee of safety for your loved ones during everyday kitchen activity.

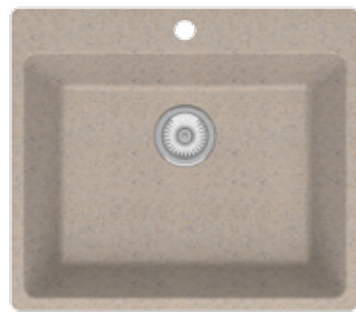

Granite conglomerate has a uniform structure and exceptional durability. It can be additionally enriched with approved antimicrobial nano silver coating which destroys fungi, mould and most bacteria and has also got a disinfecting effect.

# 1 COMPARTMENT SINKS

## Compact ergonomics

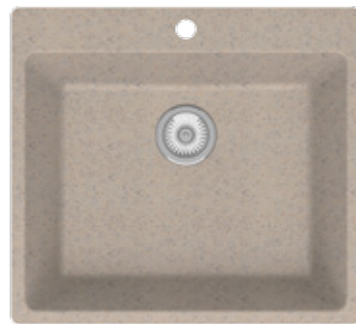

One compartment sinks are perfect for modern kitchens. Smooth edges without additional embellishments emphasise the character of a minimalist style kitchen. Due to small dimension they are ideal for smaller kitchens and kitchenettes without taking up too much space on a countertop.

All 1 compartment sinks with a drainboard are available in 8 universal colours from the standard palette.

# 1.5 COMPARTMENT KITCHEN SINKS + DRAINBOARD

Everything within reach

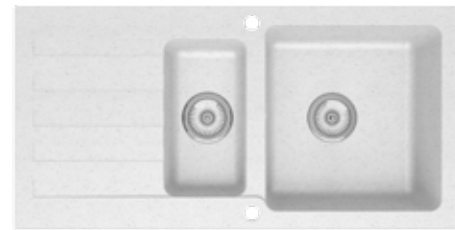

One and a half compartment kitchen sinks have simple but functional structure. They are ideal for traditional and modern kitchens. They can be used as a standalone equipment in a washing zone or can be a supplement for a dishwasher. They stand out with their elegant timeless design.

## ROSETO

1.5 compartment countertop sink with drainboard  
Dimensions: 1017 x 512

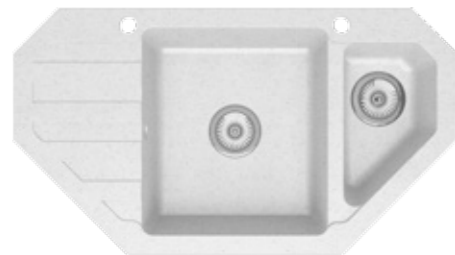

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- 2 different sizes compartments
- spacious drainboard with gentle ornament finished with practical rim

## ATRANI

1.5 compartment countertop sink with drainboard  
Dimensions: 960 x 480

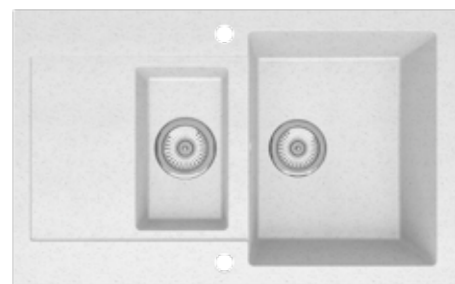

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- 2 different sizes compartments
- standard drainboard with gentle ornament

## OTRANTO

1.5 compartment countertop sink with drainboard  
Dimensions: 900 x 500

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- 2 different sizes compartments
- small practical trapezoidal drainboard
- possibility of installation in the corner of construction

## RINELLA

1.5 compartment countertop sink with drainboard  
Dimensions: 800 x 500

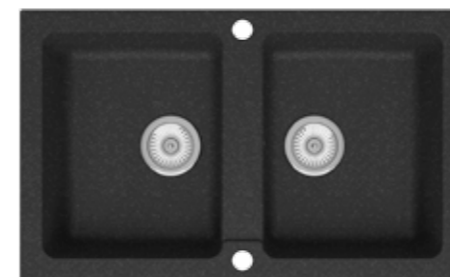

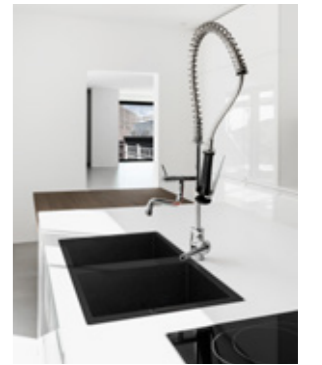

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- 2 different sizes compartments
- simple minimalist style
- small practical drainboard

# 2 COMPARTMENT KITCHEN SINKS

More possibilities

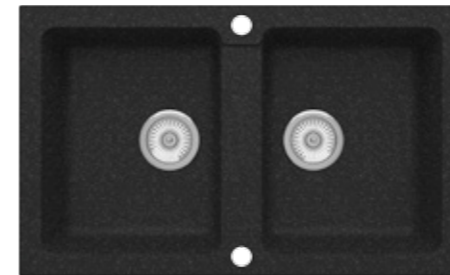

Two compartment kitchen sinks are particularly recommended for larger kitchens. Two symmetrical large compartments are perfect for preparing meals. Sinks have a 35 mm hole allowing the installation of any type of a battery.

## TREZZA

2 compartment countertop sink

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- universal and simple form
- 2 large compartments

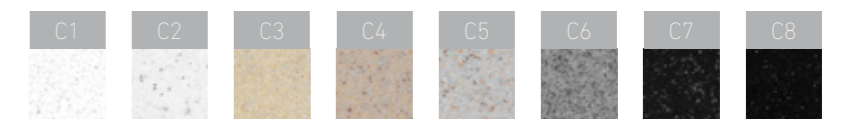

## LONGA

2 compartment countertop sink  
Dimensions: 780 x 475

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- universal and simple form
- 2 large compartments

All 1.5 compartment sinks with a drainboard and 2 compartment sinks are available in 8 universal colours from the standard palette.

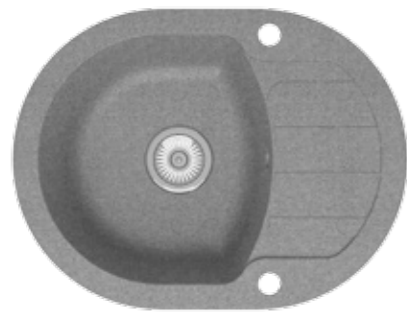

# ROUND KITCHEN SINKS

## Functionality around the clock

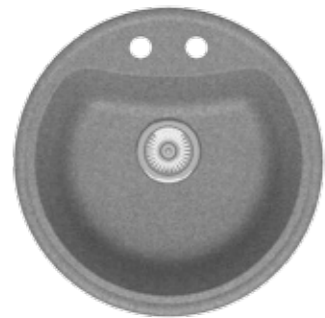

Round sinks are a perfect solution for small kitchens or not big kitchenettes and kitchens equipped with a dishwasher. Original surface of a sink in subdued colours and clearly marked edges make the whole look very elegant.

### ISOLA

1 compartment round sink with drainboard  
Dimensions: 610 x 465

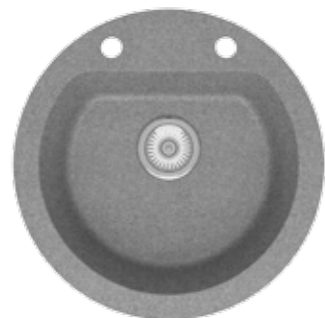

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- characteristic oval shape
- small practical grooved drainboard

### LINGANO

1 compartment round sink  
Dimensions: 500 x 500

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- round shape
- arch and smooth edge finish

### CASTEL

1 compartment round sink  
Dimensions: 510 x 510

- adapted for countertop installation
- available in 8 colours
- high quality siphon with safe overflow
- round shape
- simple and smooth edge finish

In a small rarely used kitchen it is enough to install a granite one compartment sink in a round shape for instance. It has a small size and its functionality comes down to rinsing two glasses and a few tea spoons a day. It will be a perfect complement to modern design and will not cause any trouble with exploitation and maintenance as well.

# UNDERCOUNTER KITCHEN SINKS

## Discreet installation

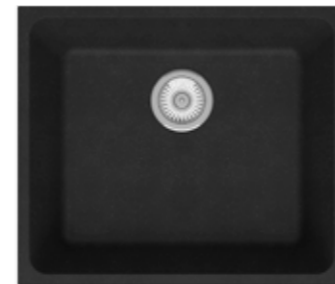

In our offer you will find rectangular suspended sinks. We offer one- and one and a half compartment models. They are designed for all types of kitchen counters and are discretely mounted under the counter.

### PROCIDA

1.5 compartment undercounter sink  
Dimensions: 558 x 460

- adapted for undercounter installation
- available in 8 colours
- high quality siphon with safe overflow
- slightly rounded edge finish
- ergonomic division into smaller and larger compartment

### NEMI

1 compartment undercounter sink  
Dimensions: 540 x 460

- adapted for undercounter installation
- available in 8 colours
- high quality siphon with safe overflow
- slightly rounded edge finish
- optimal usable usage

### TERRE

1 compartment undercounter sink  
Dimensions: 540 x 440

- adapted for undercounter installation
- available in 8 colours
- high quality siphon with safe overflow
- slightly rounded edge finish
- optimal usable usage

### MINTUMO

1 compartment undercounter sink  
Dimensions: 367 x 460

- adapted for undercounter installation
- available in 8 colours
- high quality siphon with safe overflow
- small usable size enabling installation in a 45 cm wide cabinet
