Meet technological innovations created
for your everyday comfort.

VAYER® BRAND

Meet technological innovations created for your everyday comfort.

VAYER® is an exceptional native brand with unique technological solutions which clearly improve the comfort of use and which are rarely applied by other manufacturers. We are constantly improving our products' standard and quality by introducing further innovations. For our clients, we improve what seems already perfect.

Patented by the best technologists antimicrobial nano silver coating or a bathtub heating system are the solutions which distinguish our products among the competition. The innovative VAYER® brand is also a universal and timeless design with temperament perfectly matching current trends. The most modern technologies together with creative thought, many years of experience and precision of human hands create exceptional products with unique properties.

A self-cleaning bathroom which cares for your health – this is what we call technology of the future. Thanks to VAYER® brand it can become the reality of every modern household.

VAYER® NANO SILVER TECHNOLOGY

Innovative microbiological protection

A secret of reliable quality of VAYER® products lies in nanoparticles. From among them we have selected a real jewel which enriches the elements of our collection. Dipping our products in it, gave them a new advantage: washbasins, bathtubs and shower trays are covered with antimicrobial coating which fights bacteria and prevents their development.

An innovative and specialized product with new properties allows targeting the offer to clients who are sensitive to safety and hygiene. The number of such client is constantly increasing, raising the level of public awareness in terms of microbiological protection. Our products are a perfect response to their requirements.

VAYER® INNOVATIONS

Comfortable bathroom everyday
Chromotherapy

It is considered an alternative form of treatment with light and colour. It increases body immunity, lowers stress and creates a feeling of calmness and relaxation. Colours have their temperature and sharpness which can directly affect our mental and physical condition.

The red colour supports circulation and evidently stimulates.

The green colour improves the mood and even supports metabolism.

Shades of blue help to calm down and support the treatment of rheumatism.

White colour in chromo-therapy improves well-being and inner peace.

The diodes, integrated with a bathtub surface, beautifully highlight water and give it a colour which you can select. All you need is one button and the LED spotlights will light up the inside of a bathtub.

Colours have great influence on our mind. They stimulate and relax as well.

Innovative technology of maintaining the same temperature of water in a bathtub and additional heating in a bathroom

A bathtub is still the most important element of bathroom equipment for many people. A dream of constantly warm bathtub comes true because of our modern system VAYER® ETNA.

Thanks to connecting it to central heating, a bathtub keeps the water temperature still as long as you want it, at the same time being a bathroom heater.

The innovative design allows unlimited warm bathing saving water and energy.

Relaxing hydro massage

An air hydro massage is more delicate than a water one. Its main advantage is skin oxygenation and in case of using an ozonator pump it has an additional bactericidal, fungicidal and virucidal functions. An air massage ventilates the skin, increases blood circulation, relaxes muscles, joints and connective tissue. It is of particular importance in case of tension muscle pain, sciatica, intervertebral discs damage and many other diseases.

Baths with the air have also very valuable cosmetic advantages. They help remove pregnancy changes, reduce cellulite and improve condition of a skin.

Decorative grooves of a bathtub perfectly match the oval shape of water circles inside.

VAYER® OVAL

Original elegance

VAYER® OVAL is a characteristic series based on streamline shape of an oval. When creating this collection we aimed at combining technology with emotions, aesthetics with functionality. The shape of elements is distinguished by newly discovered asymmetry. VAYER® OVAL collection is the evolution of design based on mild geometry. Thanks to soft lines and grooves, a bathroom interior acquires a friendly character. The VAYER® OVAL series can successfully be integrated with both classic and modern style.

060.043.012.3-4.0.3.0
Countertop washbasin
600 x 430 x 150

035.035.012.3-5.0.2.0 A
Inset washbasin

VAYER® PURE series
is a unique offer for admirers
of timeless simplicity
and elegance.

Unbeatable quality

A freestanding VAYER® PURE bathtub is made of the highest quality acrylic panel reinforced with a mixture of resin and ground volcanic stone called amazonite.

A bathtub made with this technology is durable, resistant to scratches and maintains its temperature. An outer acrylic layer provides high comfort of use thanks to smooth and warm surface.

VAYER® PURE

Timeless clear form

VAYER® PURE series is a unique offer for admirers of timeless simplicity and elegance. A characteristic oval shape and clear form of this series elements make it ideally suited to almost every style of arrangement. Perfect finish of details combined with technological innovations will delight and meet the expectations of the most demanding recipients. VAYER® PURE is a universal style in the best elegant edition.

060.043.012.3-4.0.1.0
Inset washbasin
600 x 430 x 20

035.035.012.3-5.0.2.0 B
Countertop washbasin
ø350

Oval freestanding bathtub
1940 x 1000

All elements of VAYER® BOOMERANG series are available in many sizes and options to allow the arrangement of any type of a bathroom.

Natural shapes

The inspiration for VAYER® BOOMERANG series was the nature itself where you can observe countless number of round shapes and curved lines.

Even light runs along a curved line and falling water cascades take the shape of a boomerang. In this soft and fluid line hidden force and energy will add a dynamic character to your bathroom.

VAYER® BOOMERANG

Inspiration from nature

In our projects we constantly strive to reach maximum harmony between sophisticated aesthetics and functionality. We want everyone who loves beauty to be able to implement the idea of synergy to their own vision of interior design.

Thanks to modern technology we create products with exceptional properties. The bathtubs from VAYER® BOOMERANG series are made of the highest quality acrylic panel reinforced with a mixture of resin and ground volcanic stone called amazonite. The bathtubs have extra reinforced and filled edges.

Soon our offer will include new line of bathtubs with additional functions: modern hydro massage systems or a bluetooth sound system.

170.075.045.1-1.0.0.0
Rectangular bathtub 1700 x 750

Rectangular shower tray 1200 x 900

Discreet and functional

All models of washbasins and shower trays from the VAYER® BOOMERANG series are made of marble conglomerate covered with antimicrobial coating. A characteristic feature of the VAYER® BOOMERANG series is a drain discreetly hidden under an aesthetic clap.

VAYER® VOLANS DUAL COLOUR

The magic of colour in your bathroom

Meeting the expectations of our clients we created a new elegant series in a classic and timeless style where we offer a two-colour freestanding bathtub, a countertop washbasin and a freestanding washbasin.

Minimalist style, ergonomic shape and optimal size allow to use the VAYER® VOLANS series even in standard small size bathrooms. All elements of the series are made of high quality marble conglomerate with antimicrobial coating. Subdued colours allow for a wide range of arrangement solutions.

Modern production technology of bathtubs cast from this series allowed for the use of internal linear overflow.

The pleasure of bathing

VAYER® KRONOS shower trays are made of the highest quality conglomerates of matte stone structure. The material has non slip properties which guarantee safety of use. Smooth surface makes it easy to keep shower trays clean and eliminates the growth of dangerous bacteria. Conglomerate perfectly keeps them warm and provides optimum temperature even during long baths.

The material is colored in mass which means any that any scratches which can occur during use are easy to remove by polishing. It guarantees flawless appearance of the shower trays for many years.

VAYER® LIBRA

Geometric simplicity

VAYER® LIBRA is a name of unusual, modern rectangular countertop washbasins made of mineral material.

A large bowl provides comfortable use and a modern line perfectly harmonises with minimalist interiors of modern bathrooms. Profiled rims and edges add a distinctive character to simple geometric solids.

The design of VAYER® LIBRA countertop washbasins basically comes down to maximum simple form and modern technology.
